Compensation to the Contractor shall be done pursuant to the Unit Prices provided in the Price Tabulation Sheet (the "Contract Prices"), attached hereto. The Contract Prices shall not be escalated during the Contract Term.

4. CONTRACT TERM

The Contract duration shall be for five (5) years from the date of the Notice to Proceed as per the Contract Documents. If the Contractor fails to complete the Work in accordance with the Contract Documents, MDX reserves the right to terminate the Contract in accordance with the section herein entitled *Termination of Contract*.

5. SMALL BUSINESS PARTICIPATION REQUIREMENT

The Contractor agrees to meet the committed **fifteen Percent (15%)** of the Bid for the Small Business Participation Requirement for this Contract (the "SB Participation Requirement") in the manner outlined in the Small Business and/or Local Business Participation Statement(s) and Subcontractor/Subconsultant Utilization Report as approved by MDX and attached hereto and incorporated herein.

This requirement is met by utilization of firms certified pursuant to the following programs of Miami-Dade County as may be required for the Services:

- Small Business Enterprise - Architectural & Engineering (SBE/AE); or
- Small Business Enterprise - Construction (SBE/CONS); or
- Small Business Enterprise - Goods and Services (SBE/GS).

In order to count toward the SB Participation Requirement, the Work provided by the Small Business (SB) must be in the areas of expertise for which the SB is certified for under the applicable program, and be considered a Commercially Useful Function, as defined in the MDX Small Business Participation Policy, as may be amended, and is incorporated herein by reference. The latest version of the MDX Small Business Participation Policy may be found in the MDX website at www.mdxway.com.

The Contractor is required to meet the commitment made to each Small Business as documented in the *Small Business and/or Local Business Participation Statement* completed for each approved Small Business. Any deviation from these commitments shall be pre-approved in writing by MDX.

The Contractor, when certified as a SB, may only self-perform fifty percent (50%) of the SB Participation Requirement. The remaining fifty percent (50%), if not the full required SB Participation Requirement percentage shall be met by subcontracting Work to certified SB's as detailed herein. Once the fifty percent (50%) SB Participation Requirement has been met by SB's

in the manner required herein; the Contractor may self-perform more than fifty percent (50%) to exceed the SB Participation Requirement.

The Contractor shall not utilize the same firms to meet both the Small Business Participation Requirement and the Local Business Participation Requirement.

Failure to comply with the SB Participation Requirement shall be a default under the Contract. The Contractor agrees to be bound by the provisions of the MDX Small Business Participation Policy, as may be amended and incorporated herein, including, but not limited to the Sections entitled *Sanctions for Contractual Violations*, and *Prompt Payment*.

It is the Contractor's responsibility to promptly notify the MDX Procurement Department with a copy to the MDX Engineering Department in the event the Contractor and/or a Subcontractor graduates from the Small Business Program as defined by Miami-Dade County. It is at MDX's sole discretion to allow the graduated firm to complete the Contract and count towards satisfaction of the Small Business Participation Requirement.

MDX will notify the Contractor in writing of its decision.

5.1 Request to Replace/Add Small Business

The Contractor shall obtain prior approval by MDX in the event they wish to request changes to an approved *Small Business and/or Local Business Participation Statement*, including but not limited to:

- a) Graduation from the SB Program;
- b) Substitution of a SB Subcontractor;
- c) Removal of a SB Subcontractor;
- d) Addition of a SB Subcontractor;
- e) Reduction of scope/committed amount to a SB Subcontractor; or
- e) For other justifiable reasons.

As may be applicable the Contractor must:

- a) Contact in writing the MDX Procurement Department, with a copy to the Engineering Department to address the issue as soon as possible after the Contractor becomes aware of any such issue. The written notification must include a justification for the requested change and be accompanied, as may be applicable, by any required

documentation;

- b) Submit a Request for Authorization to Subcontract Work along with all required documentation therein;
- c) Submit documentation of the Contractor's efforts to locate a qualified Subcontractor certified under the SB Program, including, but not limited to, contacting possible SB's in writing or by phone, and assisting qualified Subcontractor(s) to become certified under the SB Program, if applicable.

All requests for changes shall be submitted to the Engineering Department for concurrence. The Contractor must ensure that a completed *Request for Authorization to Subcontract Work form* is submitted to the MDX Procurement Department for MDX approval not less than ten (10) Calendar Days prior to the commencement of the requested change.

MDX must notify the Contractor in writing within five (5) Business Days of receipt of the above documentation that MDX does not approve the request. If such written notification is not provided within the established timeframe, the Contractor may proceed with the proposed change. MDX approval shall be documented through the *Request for Authorization to Subcontract Work form*.

In the event that the Contractor is unable to secure a replacement SB Subcontractor certified under the SB Program to perform the required Work, and has properly documented the efforts as outlined above, MDX, at its sole discretion, may re-negotiate the SB Participation Requirement for outstanding Work under the Contract.

MDX will not authorize any removals or substitutions of any SB Subcontractor that has been submitted as part of the Contract unless there has been a change in the Work pursuant to the requirements of the Contract Documents, or for circumstances beyond the control of the Contractor as determined by MDX.

5.2 Recalculation of SB Participation Requirement

When Extra Work is added to the Contract through a Supplemental Agreement(s), or a Work Order is issued to be paid out of the Contingency fund, MDX will analyze the particulars of the added Work to determine, at its sole discretion, the Contractor's ability to include SB participation for that added Work.

In the event the Contractor is assigned Work that are considered specialized and as such do not permit for utilization of SB's, and therefore potentially hinder the Contractor's ability to meet the SB Participation Requirement, the Contractor shall immediately notify MDX in writing.

Such notification shall include sufficient information to support the inability to utilize SB's. MDX shall acknowledge in writing receipt and understanding of the notification.

If MDX determines that the Contractor cannot include SB participation for the added Work,

Contract

_____ **Initials (Contractor)**

 **Page 8 of 39**

MDX shall exclude the dollar amount for such portion of the Work from the SB Participation Requirement calculation without prejudice to the Contractor.

A similar evaluation will be performed by MDX in the event Work is deleted from the original scope of the project. MDX will provide such approval through a Supplemental Agreement.

It is the Contractor's responsibility at the time the Work is added or deleted to request the recalculation of the SB Participation Requirement.

5.3 Tracking and Enforceability of the SB Participation Requirement

The SB Participation Requirement shall be based upon the total dollar amount paid out to the Contractor at the close out of the Contract inclusive Supplemental Agreements and any amounts approved by MDX pursuant the section entitled *Recalculation of SB Participation Requirement*.

MDX shall monitor the Contractor's progress in meeting the SB Participation Requirement as part of the monthly invoice review and approval. Both the *MDX Invoice Tracking Form* submitted with each monthly invoice; the *Subcontractor/Subconsultant Utilization Report*; and the currently approved Project Schedule will be evaluated to determine the Contractor's progress and ability to comply with the SB Participation Requirement.

Prompt submittals of all required documentation pursuant to the events described in above Sub-article entitled *Request to Replace/Add Small Business*, and Sub-article entitled *Recalculation of SB Participation Requirement* are required to ensure that MDX properly evaluates the Contractor's satisfaction of the SB Participation Requirement.

If during a Contract Performance Evaluation it is determined by MDX that the Contractor's progress is insufficient in meeting the SB Participation Requirement, pursuant to the Project Schedule and the *Subcontractor/Subconsultant Utilization Report*, the Contractor shall provide MDX for review and approval a written justification for such deviation. In addition, the Contractor shall provide a plan outlining how the Contractor intends to meet the SB Participation Requirement for the remainder of the Contract.

A Contract Performance Evaluation will be performed at Contract close out, and if it is determined by MDX that the Contractor's failure to comply with the SB Participation Requirement is unjustified, the Contractor acknowledges that is in breach of the Contract. Any such failure will result in the unjust enrichment of the Contractor and will cause a detriment to MDX.

As such, damages arising from such breach cannot be calculated with any degree of certainty, and accordingly, it is hereby agreed that the Contractor shall pay to MDX, as liquidated damages and not as a penalty, the percentage of the SB Participation Requirement not met, multiplied by the dollar amount paid by MDX to the Contractor throughout the Contract, but

in no event it shall exceed Four Hundred Fifty Thousand Dollars (\$450,000.00). In this event, MDX shall retain any amounts withheld or due to be withheld from the Contractor.

5.4 Contractual Violations

- a) Suspension of any payment or part thereof until such time as the issues concerning compliance are resolved;
- b) Work stoppage;
- c) Termination, suspension, or cancellation of the Contract in whole or part;

In the event the Contractor or a SB attempts to comply with the SB Participation Requirements through fraud, misrepresentation, or material misstatement, MDX shall,

whenever practical, terminate the Contract.

In addition and as a further sanction, MDX may impose any of the above-stated sanctions on any other MDX contract the Contractor and/or Small Business may have with MDX. MDX may also remove the Contractor and/or Small Business from any other MDX contract they may be participating in as a subcontractor.

In each instance the Contractor or Small Business shall be responsible for all direct and indirect costs associated with such termination or cancellation of the Contract including attorney's fees and costs.

In addition to any already applied sanction, the Contractor's eligibility to receive any future contracts from MDX may be conditioned upon the Contractor making up the deficit in Small Business participation of this Contract in future contracts, as detailed in the MDX Small Business Participation Policy. The foregoing obligation shall be in addition to any SB requirement otherwise applicable to any future contract.

6. LOCAL BUSINESS PARTICIPATION REQUIREMENT

The Contractor agrees to meet the committed fifteen Percent (15 %) of the Bid for Local Business Participation Requirement for this Contract (the "LB Participation Requirement") in the manner outlined in the Small Business and/or Local Business Participation Statement(s) and Subcontractor/Subconsultant Utilization Report as approved by MDX and attached hereto and incorporated herein.

This requirement is met by utilization of firms certified pursuant to MDX Local Business Participation Policy, as may be amended, and incorporated herein by reference. The latest version of the MDX Local Business Participation Policy may be found in the MDX website at www.mdxway.com.

The Contractor is required to meet the commitment made to each Local Business as documented in the *Small Business and/or Local Business Participation Statement* completed for each approved Local Business. Any deviation from these commitments shall be pre-approved in writing by MDX.

The Contractor, when certified as a LB, may only self-perform fifty percent (50%) of the LB Participation Requirement. The remaining fifty percent (50%), if not the full required LB Participation Requirement percentage shall be met by subcontracting Work to certified LB's as detailed herein. Once the fifty percent (50%) LB Participation Requirement has been met by LB's in the manner required herein; the Contractor may self-perform more than fifty percent (50%) to exceed the LB Participation Requirement.

The Contractor shall not utilize the same firms to meet both the Small Business Participation Requirement and the Local Business Participation Requirement.

Failure to comply with the LB Participation Requirement shall be a default under the Contract. The Contractor agrees to be bound by the MDX Local Business Participation Policy, as may be amended, and the requirements of the Contract in the compliance of the LB Participation Requirement.

It is the Contractor's responsibility to promptly notify the MDX Procurement Department with a copy to the Engineering Department in the event that the LB Certification of the Contractor and/or a Subcontractor expires and is not renewed by MDX. It is at MDX's sole discretion to allow the Work performed by any such non-certified firm(s) to be completed or to continue to count toward the LB Participation Requirement for a period not to exceed twelve (12) months from the time the certification expires.

However, no new Work may be assigned to the non-certified firm for purposes of counting toward compliance of the LB Participation Requirement. MDX will notify the Contractor in writing of its decision.

Should MDX approve an extension of the Contract, Work performed by the non-certified firm shall no longer be counted toward the LB Participation Requirement.

6.1 Request to Replace/Add Local Business

- c) Removal of a LB Subcontractor;
- d) Addition of a LB Subcontractor;
- e) Reduction of scope/committed amount to a LB Subcontractor; or
- f) For other justifiable reasons.

As may be applicable the Contractor must:

- a) Contact in writing the MDX Procurement Department, with a copy to the MDX Engineering Department to address the issue as soon as possible after the Contractor becomes aware of any such issue. The written notification must include a justification for the requested change and be accompanied, as may be applicable, by any required documentation;
- b) Submit a Request for Authorization to Subcontract Work along with all required documentation therein;

- c) Submit documentation of the Contractor's efforts to locate a qualified Subcontractor certified under the MDX LB Program, including, but not limited to, contacting possible LB's in writing or by phone, and assisting qualified Subcontractor(s) to become certified under the MDX LB Program, if applicable.

All requests for changes shall be submitted to the MDX Engineering Department for concurrence. The Contractor must ensure that a completed *Request for Authorization to Subcontract Work* form is submitted to the MDX Procurement Department for MDX approval not less than ten (10) Calendar Days prior to the commencement of the requested change.

MDX must notify the Contractor in writing within five (5) Business Days of receipt of the above documentation that MDX does not approve the request. If such written notification is not provided within the established timeframe, the Contractor may proceed with the proposed change. MDX approval shall be documented through the *Request for Authorization to Subcontract Work* form.

In the event that the Contractor is unable to secure a replacement LB Subcontractor certified under the LB Program to perform the required Work, and has properly documented the efforts as outlined above, MDX, at its sole discretion, may re-negotiate the LB Participation Requirement for outstanding Work under the Contract.

MDX will not authorize any removals or substitutions of any LB Subcontractor that has been submitted as part of the Contract unless there has been a change in the Work pursuant to the requirements of the Contract Documents, or for circumstances beyond the control of the Contractor as determined by MDX.

6.2 Recalculation of LB Participation Requirement

When Extra Work is added to the Contract through a Supplemental Agreement(s), or a Work Order is issued to be paid out of the Contingency fund, MDX will analyze the particulars of the added Work to determine, at its sole discretion, the Contractor's ability to include LB participation for that added Work. If MDX determines that the Contractor cannot include LB participation in the added Work, MDX shall exclude the dollar amount for such portion of the Work from the LB Participation Requirement calculation without prejudice to the Contractor.

In the event the Contractor is assigned Work that are considered specialized and as such do not permit for utilization of LB's, and therefore potentially hinder the Contractor's ability to meet the LB Participation Requirement, the Contractor shall immediately notify MDX in writing. Such notification shall include sufficient information to support the inability to utilize LB's. MDX shall acknowledge in writing receipt and understanding of the notification.

A similar evaluation will be performed by MDX in the event Work is deleted from the original scope of the project.

It is the Contractor's responsibility at the time the Work is added or deleted to request the recalculation of the LB Participation Requirement.

6.3 Tracking and Enforceability of the LB Participation Requirement

The LB Participation Requirement shall be based upon the total dollar amount paid out to the Contractor at the close out of the Contract inclusive of all Supplemental Agreements and any amounts approved by MDX pursuant to Sub-article entitled *Recalculation of LB Participation Requirement*.

MDX shall monitor the Contractor's progress in meeting the LB Participation Requirement as part of the monthly invoice review and approval. Both the *MDX Invoice Tracking Form*; submitted with each monthly invoice the *Subcontractor/Subconsultant Utilization Report*; and the currently approved Project Schedule will be evaluated to determine the Contractor's progress and ability to comply with the LB Participation Requirement.

The Contractor shall be fully responsible for Work performed under this Contract, and all matters relating to payment of its employees including compliance with Social Security, withholding tax, workers' compensation, immigration law compliance and all other laws and regulations governing such matters.

The Contractor shall be responsible for its own acts and those of its agents, independent contractors, and employees during the Contract term. Except as otherwise specifically provided, as an independent Contractor, the Contractor will be solely responsible for determining means and methods for performing the Work described in the Contract Documents.

Contract
_____ Initials (Contractor)

The Contractor, Subcontractors, and their respective employees providing Work under this Contract shall remain, at all times throughout the Contract term, authorized to do business within the State of Florida.

Throughout the Contract, the Contractor, Subcontractors(s) and their personnel shall be properly prequalified, licensed, certified, and/or registered by the appropriate governmental authority, as may be applicable to meet the requirements of the Contract Documents and to perform the Work.

Initial personnel, classifications and rates of personnel, and Subcontractors have been approved by MDX at the time of execution of the Contract. Any subsequent changes in personnel and Subcontractors shall require prior written approval from MDX as further detailed herein.

The Contractor will use due care in performing the Work and will have due regard for acceptable standard and principles. The Contractor's standard of care shall not be altered by the application, interpretation, or construction of any other provision of this Contract.

11.1 Contractor's Personnel

The Contractor shall maintain adequate, dedicated, qualified, reliable and committed personnel for the performance of the Work. Such personnel must perform the Work, at a minimum, with a degree of care and skill common of the profession.

The Contractor warrants that it has not employed or retained any company or person other than a bona fide employee working solely for the Contractor, to solicit or secure this Contract and that it has not paid or agreed to pay any person, company, corporation, individual, or firm, other than a bona fide employee working solely for the Contractor, any fee, commission, percentage, gift, or any other consideration monetary or non-monetary, contingent upon or resulting from the award or making of this Contract. It is further understood and agreed that the term "fee" shall also include brokerage and finder's fees, however denoted.

If the Contractor breaches or violates the above mentioned provision, MDX shall have the right to deduct from this Contract or Work Order price, or otherwise recover, the full amount of such fee, commission, percentage, gift, or consideration or may in its sole discretion pursue any other remedies available to MDX including termination of this Contract.

11.2 Removal of Contractor's Personnel

If, in the opinion of MDX, assigned to the Contract is not qualified to perform the Work or is insubordinate, disorderly, disrupts, or is detrimental to the progress of the Work, such person shall be immediately removed from the Contract by the Contractor upon written request from MDX. Such person shall not be assigned to perform the Work under this Contract again without the written permission of MDX. Upon the removal of such person, the Contractor shall promptly provide an acceptable substitute at no additional cost to MDX. If the Contractor fails to immediately remove such person and provide an acceptable substitute, MDX may, at its sole discretion, withhold payments due or which may become

due, or may terminate the Contract. The Contractor shall protect, indemnify, and hold harmless MDX, its agents, officers and employees from any and all claims, actions, or suits arising from such removal, discharge, or suspension of a Contractor employee based on the direction of MDX to remove from this Contract.

11.3 Changes to Contractor's Personnel

After the Contractor follows the steps described above, MDX shall review the submitted documentation and determine, at its sole discretion, whether or not to approve the personnel change. MDX approval shall be documented through the *Personnel Change Request Form*.

11.4 Subcontractors

The Contractor shall ensure that all subcontracts entered into with its Subcontractors grant MDX all of the rights and privileges of such subcontract, including but not limited to (so long as MDX is not in default of its obligations under this Contract) MDX's right to secure materials or services from the Subcontractor which might be a part of the Subcontractor's work production.

All Subcontractors and their personnel shall be properly licensed, certified, and/or registered by the appropriate governmental authority, including Small Business and/or Local Business certifications, as may be applicable to meet the requirements of the Contract Documents and to perform the Work.

Upon request, the Contractor must furnish MDX with a copy of any subcontract related to the Work. Subcontracting of any portion of the Work does not relieve the Contractor of their

respective liabilities under the Contract. MDX recognizes a Subcontractor only in the capacity of an employee or agent of the Contractor, and MDX may require the Contractor to remove the Subcontractor as in the case of an employee of the Contractor.

11.5 Changes to Subcontractors

For changes to Subcontractors, the Contractor shall obtain prior approval by MDX.

As may be applicable, the Consultant must:

- (1) Contact in writing the MDX Procurement Department, with a copy to the Contract Manager to address the issue as soon as possible after the Consultant becomes aware of any such issue. All requests for changes shall be submitted on a completed *Request for Authorization to Subcontract Work* form directly to the MDX Procurement Department for approval not less than ten (10) Calendar Days prior to the commencement of the requested change. All requested changes require review and approval from both the MDX Procurement Department and the Contract Manager. Only one submittal to the MDX Procurement Department is required.

MDX shall review the submitted request with related documentation and determine, at its sole discretion, whether or not to approve the Consultant's request within five (5) Business Days from the submittal of a properly documented request by the Consultant. MDX approval shall be documented through the *Request for Authorization to Subcontract Work* form.

12. PROHIBITION ON ASSIGNMENT

The Contractor shall not subcontract, sell, assign, transfer or otherwise dispose of the Contract or any portion thereof or the rights or responsibilities therein, without written consent by MDX. The Contractor shall not assign or transfer the rights or responsibilities of any Work under this Contract, to any person or firm other than the approved personnel and Subcontractors under this Contract. The Contractor is hereby prohibited from assigning this Contract without the express prior written consent of MDX, which consent may be withheld at MDX's sole and absolute discretion.

13. AVAILABILITY OF FUNDS

Contract
_____ Initials (Contractor)

This Contract is subject to the availability of funds in the MDX budget for each fiscal year of this Contract. MDX will require written authorization from MDX's Chief Financial Officer ("CFO") that funds are available prior to entering into any contract, task authorization or other binding commitment of funds.

MDX will not, during any fiscal year, expend money not approved by the CFO, incur any liability or enter into any contract or task authorization that, by its terms, involves the expenditures of money in excess of the amounts budgeted as available for any expenditure during such fiscal year.

If MDX enters into such a contract in writing, in violation of this section, such contract or task authorization is null and void, and MDX will not make any payments thereunder. Nothing herein contained prevents MDX from executing contracts or task authorizations for a period exceeding one (1) year, but MDX will make such contracts or task authorizations executory only for the value of the work to be rendered or agreed to be paid for in succeeding fiscal years.

14. CHANGES TO THE WORK

Before making any additions or deletions to the Work, and before undertaking any changes or revisions to the Work, the Parties shall negotiate any necessary cost and schedule changes, if any, and shall enter into a Supplemental Agreement covering such modifications and compensation to be paid to the Contractor as may be applicable.

Reference herein to this Contract shall be deemed to include any supplement hereto. Unless otherwise agreed to by MDX in writing, the Contractor's Bid shall apply to all Supplemental Agreements.

When MDX requires Work not defined or covered by an agreed upon price under the Contract, and MDX finds that such service(s) is essential to the satisfactory completion of the Contract, within its intended scope, MDX will make an adjustment to the Contract through a Supplemental Agreement.

The basis of payment for such adjustment will be in the amount MDX determines to be fair and equitable upon discussion and mutual agreement with the Contractor, as well as any relevant provisions of the Contract Documents.

A Supplemental Agreement shall be executed by MDX and the Contractor for any additional work not contained in this Contract.

15. CLAIMS FOR EXTRA WORK

In any case where the Contractor deems that extra compensation is due it for Work not covered in this Contract, the Contractor shall notify MDX in writing within twenty (20) Calendar Days of its intention to make a claim for extra compensation prior to providing such Work on which the claim is based.

If such notification is not given in writing within twenty (20) Calendar Days, then the Contractor hereby agrees to waive the claims for such extra compensation. Such notice by the Contractor shall

in no way be construed as proving the validity of the claim.

16. SCHEDULE AND DELAYS

At the request of MDX, the Contractor agrees to provide progress reports in a format acceptable to MDX and at intervals established by MDX providing the status of Work being done by the Contractor and of the details thereof. Close collaboration and cooperation shall be maintained by the Contractor with representatives of MDX or other third parties approved by MDX. Either Party to the Contract may request and be granted a conference.

In the event there are delays, or projected delays due to MDX regarding the approval of any of the materials submitted by the Contractor, or if there are delays or projected delays occasioned by circumstances beyond the control of the Contractor which delay is anticipated to delay the completion date, as set forth in the Contract and/or Work Order, MDX may grant to the Contractor an extension of time for performance equal to the aforementioned delays or projected delays, provided there are no changes in compensation or Work. The Contractor shall not claim any financial compensation due to delays caused by the Contractor.

The Contractor agrees that the sole remedy in this event will be an extension of time for performance. The granted extension may be done in writing by the Deputy Executive Director/Director of Engineering or designee, and must include a specific time frame for the completion of the Work, provided that such time extension for completion of the Work does not impact the Contract term or trigger effectiveness of contract provisions, such as liquidated damages, as may be applicable. In such case, the time extension must be approved through a Supplemental Agreement.

It shall be the responsibility of the Contractor to monitor and ensure that sufficient time remains in which to complete the requested Work. In the event any delays occur that would affect the completion date, as determined in the Contract Documents, the Contractor shall submit a written request to MDX which identifies the reason(s) for the delay and the amount of time related to each reason. MDX shall review the request and make a determination as to granting all or part of the requested extension.

In the event that the time for performance expires and the Contractor has not requested, or if MDX has denied an extension of the completion date, partial progress payments will be stopped on the date time expires. No payment shall be made for Work performed subsequent to the date time expires until a time extension is granted or all Work has been completed and accepted by MDX.

17. FORCE MAJEURE

The failure of either MDX or the Contractor to comply with any provision of this Contract due to an act of God, hurricane, war, fire, riot, earthquake, flood, strikes, act of public enemies, or actions of governmental authorities outside of the control of either MDX or the Contractor (excepting compliance with applicable codes and regulations) will not be considered a breach of this Contract. In this event, the time for the performance of the obligations under this Contract will be extended

for a period commensurate with the delay but the Contractor will receive no additional compensation.

The Contractor performance will be evaluated using the MDX Contract Performance Evaluation procedures described in the MDX Procurement Policy.

20. CONTRACT DOCUMENTS ORDER OF PRECEDENCE

The Parties agree that the Contract, inclusive of Exhibits and any amendments to the Contract (the "Contract Documents") shall control unless explicitly replaced or amended in writing and signed by both Parties.

The order of precedence for the Contract Documents shall be:

- Any Supplemental Agreements to the Contract
- Executed Contract (excluding exhibits listed separately herein)
- Scope of Work
- Bid Tabulation

If a conflict exists between a MDX originated document and a document originated by the Contractor, the MDX document shall control. Furthermore, any document created prior to Award of the Contract shall be superseded by documents created after Award of the Contract.

21. CONFLICTS OF INTEREST:

In addition to the Conflict of Interest provisions in the Invitation to Bid (ITB) the following shall apply to the Contract:

The Contractor warrants that, to the best of the Contractor's knowledge and belief, there are no relevant facts or circumstances which could give rise to a potential or actual conflict of interest, including but not limited to, an Organizational Conflict of Interest, as defined herein, or a Personal Conflict of Interest, as defined herein, (hereinafter collectively referred to as "Conflict of Interest", "Conflicts of Interest" or "COI"), or that the Contractor has disclosed in writing to MDX all such relevant information relating to the Contractor, its employees, its agents or any of its

Prior to commencement of any Work, or immediately after becoming aware of a Conflict of Interest, whichever is sooner, the Contractor agrees to notify MDX's Executive Director or his or her delegate either:

- (1) That, to the best of its knowledge and belief, no Conflict of Interest exists, or
- (2) To identify to MDX any Conflict of Interest the Contractor or its agents, employees, or Subcontractors may have. In emergency situations, however, Work may begin, but notification of Conflicts of Interest shall be made in writing to MDX's Executive Director or his or her delegate within five (5) Business Days.

The Contractor agrees that if a Conflict of Interest is identified during performance, the Contractor will immediately make a full disclosure in writing to MDX's Executive Director or his or her delegate. This disclosure shall include a description of actions, which the Contractor has taken or proposes to take, after consultation with MDX, to avoid, mitigate, or neutralize the Conflict of Interest. The Contractor shall discontinue any relevant performance until notified by MDX's Executive Director or his or her delegate of any contrary action to be taken.

MDX may, at its sole discretion, withhold payments due or which may become due, suspend the Work, terminate this Contract for convenience, in whole or in part, if it deems such termination necessary to avoid a Conflict of Interest, or pursue such other remedies as may be permitted by law or this Contract. If the Contractor was aware of a Conflict of Interest prior to award or discovered a Conflict of Interest after award and did not disclose it, or misrepresented relevant information to MDX, or MDX becomes aware of a Conflict of Interest that was not disclosed by the Contractor, MDX

- (1) Immediately notify MDX's Executive Director or his or her delegate when the Contractor becomes aware of any Conflicts of Interest.
- (2) Immediately notify MDX's Executive Director or his or her delegate prior to incurring costs for any Work when a Conflict of Interest situation may or does exist.

In the event that the Conflict of Interest does not become known until after performance of the Contract begins, the Contractor shall immediately notify MDX's Executive Director or his or her delegate of the Conflict of Interest. The Contractor shall cease performance of this Contract until notified by MDX's Executive Director or his or her delegate of the appropriate action to be taken. The parties to this Contract agree that the Contractor will be restricted in its future contracting in the manner described below.

Therefore, no claim shall be made against MDX to recover bids/proposals costs as a direct cost whether the request for authorization to enter into the other contract is denied or approved.

A review process available to the Contractor when an adverse determination is received shall consist of a request for reconsideration to MDX's Executive Director or his or her delegate and a request for review submitted to MDX's Operations Committee.

An adverse determination resulting from a request for reconsideration by the MDX Executive Director or his or her delegate will not preclude the Contractor from requesting a review by MDX's Operations Committee.

Either a request for review or a request for reconsideration must be submitted to the appropriate level within thirty (30) Calendar Days after receipt of the initial adverse determination.

34.4 Termination for Convenience

The performance of Work under this Contract may be terminated by MDX in accordance with this clause, in whole or in part, whenever MDX determines that such termination is in the best interest of MDX.

MDX shall notify the Contractor of such termination with instructions as to the effective date of the termination, which effective date shall not be less than thirty (30) Calendar Days after the date of such notification, or shall specify the stage of Work at which this Contract is to be terminated. Upon termination, the Contractor shall be entitled to payment for Work completed to the date of termination only. The percentage of completion shall be determined by MDX.

34.5 Termination for Insolvency

MDX reserves the right to terminate or cancel this Contract in the event the Contractor shall be placed in either voluntary or involuntary bankruptcy or an assignment shall be made for the benefit of creditors.

34.6 Relieve of Liabilities

Notwithstanding the rights of the Parties to terminate this Contract as described elsewhere in this Contract, the Contractor shall not be relieved of liability to MDX for damages sustained by MDX, by virtue of any breach of the obligations, covenants, agreements, stipulations, representations or warranties of this Contract by the Contractor and MDX may withhold any payment due to the Contractor up to the amount of damages claimed by MDX for the purpose of set-off, until such time as the exact amount of damages due to MDX is agreed upon or otherwise determined.

34.7 Termination Transition

At the discretion of MDX, but no longer than thirty (30) Calendar Days from the effective date of termination, the Contractor shall provide reasonable cooperation in the transition of its responsibilities.

35. DISPUTES, DISPUTE RESOLUTION AND CLAIMS

If any dispute regarding the Contractor claims arising hereunder, or related to the Contract and the Contractor's performance of Work hereunder results in litigation, the prevailing party in such litigation shall be entitled to recover reasonable attorneys' fees and costs including costs and expenses of expert witnesses.

The term "Contested Claim" or "Claim" shall mean the initial written, or original claim submitted to MDX by the Contractor (disputed by MDX), which have not otherwise been resolved in accordance with the terms of the Contract prior to the initiation of litigation. The Contractor's Claim, or portions thereof, which MDX agreed to pay or offered to pay prior to initiation of litigation, shall not be deemed a Contested Claim for purposes of this provision. If the Contractor submits a modified, amended or substituted claim after its original Claim and such modified, amended or substituted claim is for an amount greater than the original Claim, the higher amount shall be the Claim.

Attorneys' fees and costs awarded to the prevailing party shall mean reasonable fees and costs incurred in connection with and measured from the date a Claim is initially submitted to MDX through and including trial, appeal and collection.

In the circumstance where an original Claim is subsequently modified or amended, or a substituted claim is filed, fees and costs shall accrue from the date of when the original Claim was submitted.

The term "litigation" shall include mediation proceedings. As a condition precedent to litigation, the Contractor shall have first submitted its Claim, together with supporting documentation, to MDX, and MDX shall have had sixty (60) Calendar Days thereafter within which to respond thereto.

The purpose of this provision is to discourage frivolous or overstated Claims, and, as a result thereof, MDX and the Contractor agree that neither party shall avail itself of Section 768.79, Florida Statutes,

or any other like statute or rule involving offers of settlement or offers of judgment, it being understood and agreed that the purpose of such statute or rule are being served by this provision. Should this provision be judged unenforceable or illegal, in whole or in part, by a court of competent jurisdiction, this provision shall be void in its entirety and each party shall bear its own attorneys' fees and costs.

No court proceedings on any Claim may be filed until the Parties have first participated in mediation.

All Work shall be performed by the Contractor in accordance with sound business and accounting practices to the satisfaction of MDX. MDX shall decide all questions, difficulties, and disputes of any nature whatsoever that may arise under or by reason of the Contract, the prosecution and fulfillment of the Work hereunder, the character, quality, amount and value thereof; and its determination upon all Claims, questions and disputes shall be final and conclusive upon the Parties hereto.

Adjustment of compensation and Contract time because of any major changes in the Work that may become necessary or desirable as the Work progress shall be left to the absolute discretion of MDX and any such adjustments shall be evidenced by a Supplemental Agreement between the Parties in accordance herewith.

In the event that the Contractor and MDX are not able to reach an agreement as to the amount of compensation to be paid to the Contractor for additional work desired by MDX, the Contractor will be obligated to proceed with the additional work in a timely manner for the amount determined by MDX to be reasonable. In such event, the Contractor will have the right to file a Claim with MDX for such additional amounts as the Contractor deems reasonable; however, in no event will the filing of the Claim or the resolution or litigation thereof through the courts relieve the Contractor from the obligation to timely perform the additional work.
